# VEGETATION SURVEY INDEX

Directions: Use this legend to identify the trees located on your property so that the numbers below correlate with the numbers on your survey. **Trees under 14' in height** do not meet the minimum requirement of a tree and should not be listed on the survey.

DBH = Diameter at breast height measured 54" above ground level.

NOTE-DBH is calculated by measuring the circumference of the tree and then divide by 3.14.
