Engineering Updates

Cultural Center Porte Cochere

The Cultural Center is set to receive a porte cochere, which will provide covered access to the building, enhancing convenience and accessibility for visitors. Bids for the project were opened earlier this month, and after review, construction is anticipated to begin in the spring. This new addition will improve the overall experience for guests, offering shelter from the elements as they arrive at the center. For more details, please see the attached information on the right.

AT&T work within Willows

Work for AT&T began on January 13, 2025, and is expected to take approximately six months, progressing in multiple phases throughout the area outlined in the attached map. Excavation work will take place within the public right-of-way and utility easements. The public right-of-way begins at the owner's property line at the back edge of the sidewalk and extends across the street to the back of the opposite sidewalk. It is important to note that this area is publicly owned, and the adjacent property owner neither owns nor pays taxes on this land. The utility company, authorized by its permit from the Village, is permitted to work on this land. For any questions or concerns, please contact Tim DeLand, Village Project Manager, at tdeland@royalpalmbeachfl.gov.
